A vision splendid
ICT: research, pedagogy, implementation
for schools

ABOUT THE CONFERENCE
The vision to transform school education through the use of ICT has been in existence for more than two decades. Join leading researchers, policy makers and practitioners in exploring recent trends and vital factors that will make this vision a reality. The theme will be brought into focus through the following strands:

• use of ICT to provide personalised learning advantage to accommodate student diversity;
• professional development opportunities and resources to support learning;
• effective ICT integration into teaching practice and curriculum delivery.
